PROJECTS

- ZIPBEE – CUSTOMER & DRIVER APPS

Customer (TestFlight) Driver (TestFlight)

Developed dual cross-platform Flutter applications for a parcel-sharing platform. Implemented multi-destination delivery request creation, live parcel tracking, driver dispatch discovery, in-app Google Maps route navigation, real-time customer-driver chat, and push notifications with resilient REST API state management.

Flutter Dart Google Maps REST API Real-Time Chat Push Notifications Socket.IO
- TACO – CLIENT & CONDUCTOR APPS

Client (TestFlight) Conductor (TestFlight)

Architected dual ride-sharing and parcel-delivery Flutter apps featuring real-time price negotiation between clients and conductors via Socket.IO. Integrated Google Maps for turn-by-turn navigation, asynchronous REST APIs for trip dispatch and pricing, and automated push notifications for lifecycle updates.
